LOCINOX

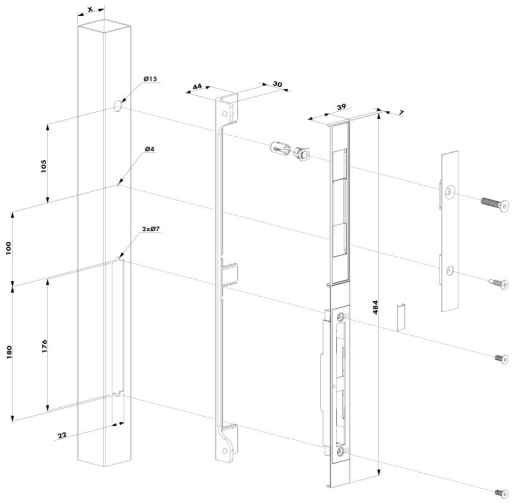

For insert locks

SFKU-V

https://www.locinox.com/en-gb/gate-hardware/keeps/for-insert-locks/d00000186

Complete your access control on pedestrian gates with this stainless steel keep, specifically designed for use with a code lock for insert locks. The SFKU-V is suitable for frames 40mm and 50mm deep, fits into the existing and universal profile preparation of the insert locks, and is easily mounted with the Click -It installation system. Enjoy increased privacy thanks to the slim design and minimal distance between the insert lock and the keep.
