LOCINOX

For insert locks

UNILEC

https://www.locinox.com/en-gb/gate-hardware/keeps/for-insert-locks/d00000204

Complete your gate installation aesthetically and efficiently with UNILEC. This innovative electric keep pushes the latch bolt outward and allows flexible positioning within the post. UNILEC fits perfectly into the UNIWING profile preparation and is easily mounted with the CLICK-IT system. The sleek finish minimizes the gap between gate and post. The keep operates on 24V DC and is available with or without a stop plate. Extra security is ensured by the Fail-Close functionality.
