Insert locks

SIXTYLOCK-A

https://www.locinox.com/en-gb/gate-hardware/locks/insert-locks/p00043521

Insert lock, recommended for residential applications, featuring a 100% stainless-steel mechanism, a 40-mm backset and a 10-mm adjustable bolt. A patented internal mechanism provides two locking functions through the cylinder: on the latch bolt and/or the handles. Both the latch bolt and the handles can be locked when combined with a mechanical keep. To ensure compatibility with electric keeps, there is a setting for an unlocked latch bolt while the handles remain locked. Easy mounting with self-drilling screws in a rectangular recess in metal, aluminium, wood or PVC profiles starting from 60 mm.

TECHNICAL SPECIFICATIONS

Left-Right Adjustability	Yes
Installation Method	Screws
Daybolt Adjustability	10 mm
Key-operated Self-Latching Bolt	Yes
Follower Size	Square 8 mm
Backset	40 mm
Profile Type	Flat
	Square
Cylinder Type	Euro Profile
Gate Profile	60 mm
